

SUMMERSIDE™

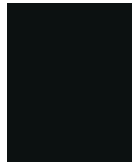

Steel Shingles are designed to outlast and outperform traditional roofing materials. Precision engineered from 28-gauge steel, their four-way interlocking system tightens on all four sides, so although they're incredibly lightweight, they provide superior strength from high winds and heavy snow. And available in a fabulous collection of richly layered colours with a velvety finish, Summerside will enhance the beauty of your home.

Made from recycled steel, they are 100% recyclable.

SUMMERSIDE™ Steel Shingles will elevate your home's curb appeal for years to come, are backed by a 50-year lifetime limited transferable warranty and won't have to be replaced... ever!

NOTE: Colours are representative only. Final colour selection should be made from actual colour samples, as colour accuracy may vary due to printing processes.

Stronger, safer, more secure and surprisingly affordable, investing in a metal roof is a wise choice.

The Vicwest Commitment

For more than 85 years, we've understood that people choose Vicwest not only because we build superior products, but because we stand behind them. Every Vicwest product we sell is backed by the best warranty in the business so you can rest assured that the roof you choose today, will protect your home for years to come. At Vicwest, we're committed to continually improving upon and developing new building products to protect the places where we live, work and play. At Vicwest, we're *building for tomorrow*.

We'd Love to Hear From You

We welcome your suggestions and feedback. Visit vicwest.com and send us a message via the **Contact us** form.

Warranty Information

Concluding the installation of your new Vicwest metal roof, warranty certificates will be issued directly to the homeowner upon completion of online registration: vicwestwarranty.com. This will be required for transferable warranties.

In accordance with ongoing efforts to improve our products and their performance, Vicwest Building Products reserves the right to change without notice the specifications contained herein.

SUMMERSIDE™ STEEL SHINGLES

THE RESIDENTIAL METAL ROOFING COLLECTION BY VICWEST

Choosing a new roof is an important decision. Cost, longevity, maintenance, resale value and curb appeal all come into play. Current research proves the superiority of a metal roof but lets face it, your roof should complement your home and neighbourhood's architectural style, not overpower it! SUMMERSIDE™ Steel Shingles will give your home an understated elegance. Classic, not clunky, a SUMMERSIDE™ Steel Roof offers superior protection and beauty... a winning combination!

Why Metal is worth the investment

Ordinary roofing materials have shorter life spans and will need to be replaced regularly, especially in areas that see an influx of hot and cold temperatures coupled with high weather activity. With constantly increasing material and labour costs, this could result in significant expense over the life of your home. A roof purchase isn't something you plan on, so why do it twice? With warranties up to 50 years, a Vicwest metal roof will save you money and future financial worry since you'll never have to re-roof again! In addition, the enhanced curb appeal and durability it provides can help increase resale value should you decide to sell your home.

WITHSTANDS:
