The Vicwest Commitment

For more than 85 years, we've understood that people choose Vicwest not only because we build superior products, but because we stand behind them. Every Vicwest product we sell is backed by the best warranty in the business so you can rest assured that the roof you choose today, will protect your home for years to come. At Vicwest, we're committed to continually improving upon and developing new building products to protect the places where we live, work and play. At Vicwest, we're *building for tomorrow*.

We'd Love to Hear From You

We welcome your suggestions and feedback. Visit vicwest.com and send us a message via the **Contact us** form.

Warranty Information

Concluding the installation of your new Vicwest metal roof, warranty certificates will be issued directly to the homeowner upon completion of online registration: vicwestwarranty.com. This will be required for transferable warranties.

In accordance with ongoing efforts to improve our products and their performance, Vicwest Building Products reserves the right to change without notice the specifications contained herein.

THE RESIDENTIAL METAL ROOFING COLLECTION BY VICWEST

SuperVic is an excellent choice for hipped roofs and homes located in treed areas. Unaffected by pine needles and sap, impervious to insect infestation, and able to withstand heavy snow, high wind and whatever else Nature sends it's way, SuperVic provides superior protection and value. Versatile and easy to install, SuperVic blends well with brick, wood, stone and siding or can be used as a wall cladding.

Why Metal is worth the investment

Ordinary roofing materials have shorter life spans and will need to be replaced regularly, especially in areas that see an influx of hot and cold temperatures coupled with high weather activity. With constantly increasing material and labour costs, this could result in significant expense over the life of your home. A roof purchase isn't something you plan on, so why do it twice? With warranties up to 50 years, a Vicwest metal roof will save you money and future financial worry since you'll never have to re-roof again! In addition, the enhanced curb appeal and durability it provides can help increase resale value should you decide to sell your home.

Efficient and cost effective, **SuperVic** offers durability and superior protection, in the classic look of metal with visible fasteners.

- WITHSTANDS:**
- RAIN
 - FIRE
 - WILL NOT ROT
 - EXCELLENT IN TREED AREAS (not compromised by pine needles or sap)
 - HAIL
 - HIGH WINDS
 - FOOT TRAFFIC
 - IMPERVIOUS TO INSECTS

Our **SuperVic** roof is an exposed fastener profile.

Its superior strength and snug fit allow spans over 30" wide, resulting in fewer supports.

And panels can be reversed to minimize material loss resulting in a cost-effective material and installation process, making **SuperVic** the perfect choice for long-term protection on a limited budget.

Engineered from 26 or 28-gauge steel and backed by a 40-year limited finish warranty, **SuperVic** roof won't warp, crack or chip, resists mold and mildew and won't burn.

WON'T WARP, CRACK, PEEL, CHIP OR BURN
